

Floating

We're floating through the night
(Telling me you love me I'm swept right off my feet)
Love lighter than a feather
(Telling me you love me I'm flying through the street)
Every kiss a mile
(I feel how your heart beats the rhythm of the wings)
Way high up in the air
(Tell me how you love me and evermore we will sing)
We're far above the cares below
We're higher than the birds can go
Cause when you hold me tight
We're floating through the night once more
