

Until the Ice Melts

Empty road blankets of snow
Walk on thin ice
Blinding white in my eyes
Fighting cold as I go
Hiding behind a frosty smile
Somewhere the spring is waiting for me
Just when I think it cannot be
Baby it's a chilling trip,
but I won't stop, no I won't slip
I'll go real slow
Walk on tiptoe
Watch out, keep low 'til the ice melts

All around faces turn blue
Chipping away
Gradually at the ice
Hoping to get to you
Wait for a little tiny crack
There is a way of breaking right through
Just when I feel it can't be done
Down within the deepest freeze
I see a chance that I might seize
I'll go real slow
Walk on tiptoe
Watch out, keep low 'til the ice melts

Chorus

When that ice melts love is heartfelt and it's springtime
All of your fear will disappear and the sun shines
Wake from your deep, icy cold sleep and it's springtime
High as a kite, happy in flight, you hear birds sing
Look and you'll see, how it can be when it's springtime
Taking a walk starting to talk and it all rhymes
Now you can play, outdoor cafes you're in full swing
Gone from your eyes that cool disguise you're wearing

Just a wink that's all it takes
Finally it breaks
Ice and snow start to flow
It becomes like a stream
Baby, I know that you can swim
We will take a ride out to the sea
That's when I know that love can be
Once the winters lost it's grip
That's when the ice will start to drip
But let's go real slow
Walk on tiptoe
Watch out, keep low 'til the ice melts
