

Words To A Song

A song is waiting just for you
I've been singing a long time
It was missing that special smile
Then I saw you walking by
Suddenly I felt this way
Something deep inside of me
With the sweet words you invite
A rhythm for a melody

Before we met I held this song
Like a candle but there was no flame
It was an empty frame
No one there who I could whisper to
A kiss like words I never knew, until
Suddenly you looked at me
And those sweet words came to be
Like the rhythm for a melody

And if my song can touch your heart
You will no longer need to wait for long it's true
My love is more than words to a song

So when you hear a lonely song
Don't you feel sad
If you wonder why your heartaches
It's a sign that my love waits
And it's time for the words within your heart
But that's only just the start
Take my hand and sing along
As I sing of my love in a song
